2017-2018 Suggested Course Sequence Sheet

As an Economics major, you will learn how individuals, corporations, and governments make decisions regarding the production and distribution of scarce resources. Your own limited resources of time and money, as you pursue your bachelor's degree, can best be managed by careful planning based on accurate information and sound advice. This suggested course schedule is flexible, but only lists major courses. Be sure to review all degree requirements each year as you select courses to fulfill both your university and your major degree requirements. Be sure to regularly review your Degree Status Check in Banner to make sure you are on track with all of your degree requirements.
